WHO WE ARE

OFFSHORE BROKERING

VOG has been an Offshore Ship-Broker for many decades, specialising in Offshore Vessels and Miscellaneous Crafts.

The Vernicos Family has a background of centuries in the Offshore market (first family company established in the 1850's)

VOG, has a history since 1978 when the first company was established by the President's father, who was an experienced Master Mariner, Salvage Master, and Claims Manager

With a solid development, the Group has stepped into its past in order to grow and build stronger grounds together with Local and the International partners

Since 2013, the Company entered into a Joint Venture with ATLAS combining the strengths of Offshore Brokering with the Management and Operation of Ships, as well as New-Buildings and Resales from the design step upto the delivery and operation thereafter

ATLAS GROUP MANAGEMENT

NEWBUILDINGS - SHIP MANAGEMENT

ATLAS has been an ex Ocean Tug-Owner and Manager, and presently undertaking as Contractor the Construction and Management of Offshore Vessels for third parties.

The company has its routes back in 2003 when the President's father, Capt. Dionyssios Lampridis, established Atlas Salvage & Towage as Owner and Manager of Ocean Going Tugs for worldwide Salvage and Towage operations

Capt. Dionyssios Lampridis, has been Senior Salvage Officer for one of the largest Salvage Companies worldwide, and has been actively engaged in providing practical and technical assistance to Ship-owners and Underwriters since 1982

In 2014 the company was Contracted for the construction and delivery of 3 ASD Tugs customized and approved by Oil Major

Following successful delivery to her owners, AtlasGM kept part of the Management until today

AtlasGM is today in close contact and monitoring of the ship-building industry, and provide professional services in this field, including in the Far East market.

Two Companies, under the same Group, both specialising in the Offshore Market, combining their forces to provide our Clients with a complete package of services.

1978 Establishment of
VERNICOS OFFSHORE

By Capt. Byron Vernicos

2010 Establishment of
VERNICOS OFFSHORE EUROPE (VOE)

By Emmanuel B. Vernicos

2009 Establishment of
VERNICOS OFFSHORE BRASIL (VOB)

By Emmanuel B. Vernicos

2012 Establishment of
VERNICOS OFFSHORE GROUP (VOG)

By Emmanuel B. Vernicos

1978 2003 2005 2009 2010 2012 2013 2014

2003 Establishment of
ATLAS SAVAGE & TOWAGE (ATLAS)
As Owners and Managers of Ships

By Capt. Dionisios Lampridis

2009-2010 ATLAS
Strategically sold its fleet before
market crisis and split profits
amongst its shareholders

By Dimitrios Lampridis

2005-2007 ATLAS
Purchased S/Tug "Wizard"
S/Tug "Captain Michalis S"
and S/Tug "Ocean Wrestler"

2013 VOG & ATLAS
Joined forces into same Entity

By Emmanuel B. Vernicos
and Dimitrios Lampridis

2014 VOG & ATLAS
Moved their HQ to Piraeus Port, Greece

By Emmanuel B. Vernicos
and Dimitrios Lampridis

Newbuildings - Deliveries - Management

Our Group combines the experience and knowledge of the market research and Brokering services, together with the Construction of New-Buildings (as Contractors) and also the Offshore Management and Operation of ships, providing, inter alia, the following services

PRE-PURCHASE/CONSTRUCTION SERVICES

- Market Research
- Vessels & Shipyards Listing & Evaluation
- New building or Resale of Vessels (Technical and Legal Assistance)
- Custom Designs and Modifications
- Pre-Contract Negotiations
- Evaluation of Specification, Equipment, and Suppliers

CONSTRUCTION SERVICES

- Quality Control of materials & equipment
- On-site Surveys
- Supervision of Fabrication, Construction, and installation
- Safety Systems and Equipment
- Commissioning
- Evaluation of FAT, and Supervision of HAT, and SAT Tests

POST CONSTRUCTION SERVICES

- Physical Delivery (including Documentation)
- Worldwide Mobilisation/Delivery of the vessels
- Pre-Sailing Preparations - Arrangements of Crew, Insurance, Provisions, Fuel/Lubes, Agents, etc.
- Full or Partial Management and Operation for short or long term
- Spare Parts Support and Follow-up
- Warranty Claims Supervision and Support

OUR SERVICES

- Sale & Purchase of Second Hand and Resales
- Chartering & Offshore Employment
- Investment Opportunities
- Valuation Reports
- Towage & Salvage
- Re-Floating Operations
- Wreck Removal
- Port & Marina Construction and Upgrades
- Miscellaneous Crafts - Floating Cranes, Dredgers, Split Barges, etc.
- Brazilian Products & International Trade
- New Buildings - Deliveries - Management
- OnOff Hire Surveys
- Pre-Purchase Surveys
- Damage Assessments
- Repairs & Upgrades
- Special and Dry-Docking Surveys & Arrangements
- Supervision
- Guarantee Defect and Claims
- ISM
- Brazilian Imports & Exports
- Market Analysis
- Technical Support - 24/7 Fly Team

Technical Support & Supervision

Our Team combines the experience and knowledge of decades and following numerous construction, conversion, and ship upgrades, providing, inter alia, the following services

PRE-PURCHASE/CHARTER SURVEYS

- Hull inspection & Ultrasonic measurements
- Propulsion system (shafts, propellers, brackets, bearings)
- Engines, Generators, Thrusters, Pumps
- Equipment (Windlass, Capstans, Anchors, etc.)
- Holds/Tanks, Piping, Electrical, Hydraulics
- Accommodation
- Certifications & Log Books
- SAT Supervision
- Valuation
- Recommendations

DRYDOCK & REPAIRS SUPERVISION

- Proper Planning & Pre-Docking preparations
- Shipyards List - Comparison of Quality and Costs
- Engine & machinery overhauls
- Damage repairs
- Pumps, compressors
- Re-tubing on main and auxiliary boilers
- Chemical cleaning
- Pressure tests
- Tank cleaning & Gas freeing
- Ensure quickest possible Delivery time
- High performance in Contracted Scope of work, Quality of work, Client's Cost & budget

3D SCANNING & DIGITAL PROCESSING

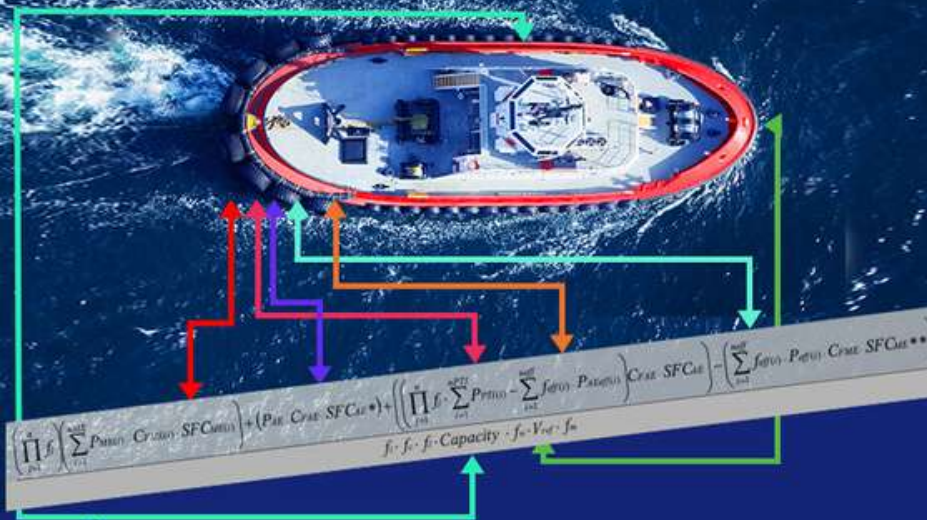

- Survey & 3D Laser Scan
- Retrofit Feasibility Study
- Detailed Engineering of equipment, piping & electrical
- Prefabrication follow up
- Onboard Attendance & Installation
- Class & Flag compliance

SCRUBBERS & BWT SYSTEMS

- Quality Control of materials & equipment
- On-site Surveys
- Supervision of Fabrication, Construction, and installation
- Safety Systems and Equipment
- Commissioning
- Evaluation of FAT, and Supervision of HAT, and SAT Tests

energy efficiency

NEW SERVICE:

TECHNICAL FILE PREPARATION FOR
EEXI COMPLIANCE

EEXI TECHNICAL FILE

- Detailed Vessel information and actual condition
- Efficiency improving factors are taken into account
- Speed reduction
- Vessel Sailing Route Assessments to determine consequential optimisation
- Existing system / equipment evaluations, upgrades, or power consumption reductions
- Cargo Handling System evaluations, upgrades, or power consumption reductions
- SW Pump evaluations, upgrades, or power consumption reductions
- VFD installation Evaluation
- Smart HVAC

EFFICIENCY FACTORS INTO CONSIDERATION

- Air Lubrication Systems
- Wind Assisted Propulsion
- Marine Battery Systems / Energy Storage
- Waste Heat / Energy Recovery
- Exhaust Gas Cleaning Systems
- Efficiency Propellor retrofit
- Efficiency Rudder Retrofit
- Existing System / equipment auxiliary saving technologies
- Shaft Generators
- Engine Tuning
- Trim Optimisation
- Coating / Antifoul evaluation
- Cold Ironing
- HVAC Optimization
- Insulation improvements

ENGINEERING & DESIGN

- Vessel Survey & 3D Scanning (if required)
- Technical Report for the calculation of the EEXI acc to Rules
- Technical Report for the method will be used for reducing the EEXI
- Technical report for the calculation of the CII
- Revision to the existing S.E.E.M.P. part 1

Our Group and our team is looking to invest and expand even more, and our main goal is to maintain our strong business relationships with our clients and partners.

Following our involvement strategy by entering into innovative markets, and by acquiring and upgrading our team with greater experience and knowledge of the marine market, we continuously offer new services and developing better quality in existing ones.
