

Helm CONNECT: Maintenance + Compliance

Meet Attached Assets

Total visibility and streamlined Maintenance for every asset.

Enhanced Shoreside Visibility

- > With the Advanced Search Dashboard, you can filter by 'Asset Groups' to provide your Port Captain with a focused view, showing only the relevant information they need

Comprehensive Asset Attachment

- > Maintain visibility into maintenance status of every attached asset, even offline
- > Attach your barges in tow to a single vessel for effective monitoring and management

Seamless Maintenance Integration

- > Integrate with existing maintenance workflows for efficient task management
- > Centralize maintenance data in a dedicated workspace for easy access

Flexible Event Logging

- > Log attachment and detachment events via the Logbook, triggering relevant forms and tasks
- > Access attached asset tasks and checklists in a dedicated onboard space for streamlined operations

Certifications and Compliance

- > Monitor attached assets' certifications onboard to ensure compliance with up-to-date records
- > Access detailed asset information through an intuitive onboard interface
